PROFILE

Skilled Full-Stack Developer with two years of hands-on experience in building robust and scalable web applications using React.js, Node.js, and various databases, including MongoDB, Firebase, and SQL. Adept at working in agile environments, collaborating with cross-functional teams, and delivering high-quality code. Eager to contribute my expertise and creativity to a dynamic organization that values innovation and growth.

WORK EXPERIENCE

Full-Stack Developer

Ashvi IT solutions   2022-2023

- Collaborated with a team of developers and designers to architect and develop a feature-rich e-commerce platform using React.js for the front-end and Node.js for the back-end.
- Implemented and optimized RESTful APIs, integrating with various third-party services for payment gateways and user authentication.
- Designed and maintained MongoDB database schemas to handle large volumes of user and product data efficiently.
- Conducted code reviews and provided constructive feedback to ensure code quality and adherence to best practices.

Full-Stack Engineer

VibgyorWeb Techiologies   2021-2022

- Assisted in the development of a real-time chat application using Firebase for real-time data synchronization and authentication.
- Worked closely with the team to refactor and optimize existing code, resulting in a 30% reduction in load time and improved overall app performance.
- Contributed to the implementation of user authentication, file uploading, and message notifications.
